Summarized his meeting with the committee on drug abuse. Committee chaired by [REDACTED] Members are [REDACTED] (OS), [REDACTED] (OMS), and [REDACTED] (representing the CS). Committee's concern is to reach all people going overseas for briefings on drugs and involve-ments; committee discussed possibility of separate briefings for parents and children but security and cover constituted major obstacles. CS has counter-proposed to send a director to the field requiring a Post Report on the drug situation; parents will be required to read this and discuss the contents with their children. Mr. [REDACTED] role was to enunciate OTR's willingness to cooperate in any decision. The subject is urgent and will be treated in the Orientation for Overseas.
